A Fitting Choice for Comfort

Bryant's Legacy of Leadership

Bryant® has been America's leading choice for home comfort since 1904. Through the commitment and dedication of our product development and manufacturing teams, we have consistently met every new challenge head-on and delivered the products to meet or exceed expectations. Today, as consumers place greater emphasis on value for the money, Bryant proudly offers a quiet operating, energy efficient gas furnace designed to fit in virtually every home - the Plus 80 gas furnace.

The Bryant Plus 80 delivers soothing relief from cold, winter days. It creates a quiet, relaxing atmosphere with its low-noise operation. And it provides the peace of mind that comes with built-in reliability and safety features. Designed, built and backed by the most

trusted name in the business, and installed by your trusted and professional Bryant dealer, the Plus 80 provides the comfort and efficiency you and your family deserve.

Quiet Comfort for Every Season

The Plus 80 has always been a great value in heating comfort. And when we talk about comfort, we look beyond basic temperature control to creating a more inviting home environment. With the Plus 80, that means noise reduction through a tuned

combustion system, carefully designed door and vibration-absorbing grommets. Down to the last detail, Bryant has always done whatever it takes to make better products, and the Plus 80 has proven its value in homes just like yours.

Designed to Fit for Lasting Comfort

With millions of homes and just as many unique designs, Bryant's Plus 80 was developed to be a perfect fit. Just 33-1/3" tall and with the ability to install in all four standard positions as well as offering thirteen venting options, this furnace offers the versatility to meet nearly every possible installation challenge. And no matter how it's installed, you can count on the same great performance.

In addition, Bryant's Plus 80 delivers the peace of mind that comes with choosing a system backed by a company committed to customer satisfaction. From initial concept through product testing and an assembly process that includes thorough reliability testing procedures, we go beyond the industry's expectations for quality to be sure that every unit we make measures up to even tougher standards – yours.

Comfort and Value.

Warranty

To the original owner, the Bryant Plus 80 model 311 gas furnace is covered by a 10-year parts and 20-year heat exchanger limited warranty upon timely registration of your new equipment.* Ask your Bryant dealer about optional extended warranties, which may include labor.

*Warranty period is 5-years if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts limited warranty. See warranty certificate at bryant.com for complete details.

Performance

Enhanced Ventilation, Better Comfort

The Plus 80 improves comfort all year long through ventilation control with Bryant's Fan On *Plus*™ technology. Fan On *Plus*™ technology lets you select from three different continuous fan speeds at the thermostat so you can maintain your comfort with larger than usual gatherings or changing weather conditions.

Include our patented Thermidistat™ Control with your heating and cooling system and you'll enjoy consistent humidity control all year long and the additional comfort of SmartEvap™ Technology. This function helps the Plus 80 work as a part of your cooling system to reduce humidity by an additional 10% over a standard system.

Home Comfort Components.

- 1 RELIABLE, EFFICIENT START UP**
The Plus 80 uses Bryant's exclusive Perfect Light™ igniter to ensure reliable start up every time your system calls for heating.
- 2 RESPONSIVE COMFORT CONTROL**
Our sophisticated furnace control answers the call for comfort with responsive, reliable system control from start up to shutdown. This component is also the key to Fan On Plus™ technology, Bryant's adjustable constant fan function.
- 3 IMPROVED INDOOR AIR QUALITY**
Our optional air cleaner cabinet helps enhance the quality of your indoor air. When installed as a part of your system, this cabinet allows the easy and convenient addition of a Bryant® high-efficiency air filter (filter sold separately).
- 4 GAS EFFICIENCY**
Our inducer fan draws the precise amount of air needed through the system's heat exchanger for top heating performance and gas efficiency.
- 5 ADDED SAFETY**
Our exclusive Blocked Vent Safeguard™ protection means this furnace shuts down if a common vent is obstructed, keeping potentially harmful flue gases away from your living areas.
